An amazing field experience would be to go to a museum to learn about different cultures, or to go speak to other people about their language or culture. I could speak to people at the school, or in the community, or even me and facetime/write people around the world. Different people that speak different languages would be fun to me, but I would really like to go meet with some writes.

Anyone, who wants to make a difference. The great thing about this project is that I will be able to reach out to people in different ways. No one ever stops learning. Writing will always be a part of our lives, and you never stop reading, it's not possible.

How will you present your learning to your audience?

I want to write a speech that will reach out to anyone who comes to my presentation, then I will have the actual display, and I will have all of my learning and examples. I am think about also making a video on why I did this, but by making it very inspirational. I will also be there to answer questions if anyone has them, even if I don't have the answers I will try my best to answer.

Materials Needed:

I will need time, and I will need help with translating different things which might be a little hard. My biggest thing is to try my best to do my best.

What questions do you have??

This is a question really for myself. “Think, what can you do to make a difference, and help others lives to become better?”
